EMPLOYMENT

Fullstack Academy of Code New York, NY
Teaching Fellow and Software Engineer Sep 2016 to Current
- Teach web development technologies and concepts to over a hundred students, and mentor a team of seven throughout the course
- Engineer on Agile team for Fullstack Academy's internal learning platform, coding bug-fixes, new features, and automated tests
- Conduct technical admissions interviews for prospective students and make admissions decisions

American Express New York, NY
Senior Financial Analyst Apr 2015 to Jun 2016
- Compiled and analyzed data and metrics to support business decisions in the largest market, identifying key drivers of weak top line growth
- Authored over 20 reports used by senior business and finance leadership to support critical business decisions for a multi-billion dollar business

U.S. Navy, National Security Agency Wahiawa, HI
Language Team Lead, Senior Chinese Language Analyst Sep 2008 to Jan 2014
- Developed job qualification training program; trained joint-service military personnel in various analytical, target development, and reporting tools, which increased training efficiency by 30%
- Wrote and released over 50% of total branch language analyst intelligence reports to national consumers, and garnered an average of 1.3 high significance feedback reports per report
- Compiled and analyzed data to develop a target of high foreign intelligence value, which resulted in over 1000% increase in coverage, and enabled the language team to commence reporting, which the office had not been able to do prior to my arrival

PROJECTS

CryptoPass Aug 2016
- Suite of mobile, desktop, and browser tools to manage passwords, credit cards, and other sensitive data using AES encryption
- Developed in JavaScript with PostgreSQL, Express, Angular, Node, Ionic/Cordova, Electron

Cryptonic Aug 2016
- Mobile app that tracks cryptocurrency price movements against the dollar and identifies arbitrage opportunities
- Built with JavaScript using PostgreSQL, Express, Angular, Node, Ionic/Cordova, Cheerio, and Highcharts
